

Mystery Rock Lab

1. Use what you have learned in the Rock Characteristics Lab, identify the unknown rock samples found in the Mystery Rock Collection.
2. Use the ROCK KEY found at <http://rockhounds.com/rockshop/rockkey/#3> to "key out" the properties of the mystery rocks and determine their identity.
3. Your Rock Identification Booklet should also be helpful.

Your Rock Identification Booklet should also be helpful.

Use the **ROCK KEY** at <http://rockhounds.com/rockshop/rockkey/#3>
