

# Rock and Mineral Scavenger Hunt

## Scavenger

Find me on the table in the hallway and then show me to your teacher!! Don't forget to give me a name from the list on page 2!!

1. "I am an Igneous Rock. I am full of holes because the lava I cooled from was very gassy".

2. "I am a Metamorphic rock that has crystals and bands (stripes). Don't take me for *granite*".

3. "I am a Sedimentary rock made from a mixture of different sized particles cemented together".

4. "I am a Sedimentary rock made from very fine silt and mud all squeezed together into solid rock".

5. "I am an Igneous rock that cooled so quickly from lava that I'm shiny like glass".

6. "I am a mineral that splits into thin layers. I used to be used in windows (sort of the first Plexiglas)".

7. "I am a Sedimentary rock made from sand sized particles cemented together".

8. "I am a Sedimentary rock made from dissolved sea shells. I might even have a fossil on me".

9. "I am a Metamorphic rock that used to be shale but have been changed by heat and pressure. The sometimes use me for chalk boards".

10. "I am a mineral that breaks in cube shapes and tastes very salty. (I would not take a taste, someone else probably already has)".

11. "I am a Sedimentary rock that you might get in your stocking at Christmas when you were especially bad".

12. "I am a Metamorphic rock that used to be limestone. I have crystals but I am too soft to scratch glass".

**List of rock and mineral names:** (pick from these names to fill in the blanks above)

Conglomerate

Limestone

Schist

Pumice

Gneiss

Halite

Coal

Marble

Shale

Obsidian

Slate

Mica

Sandstone
