Lesson and take the test:

Q1 A B C (circle one)

Q2 A B C (circle one)

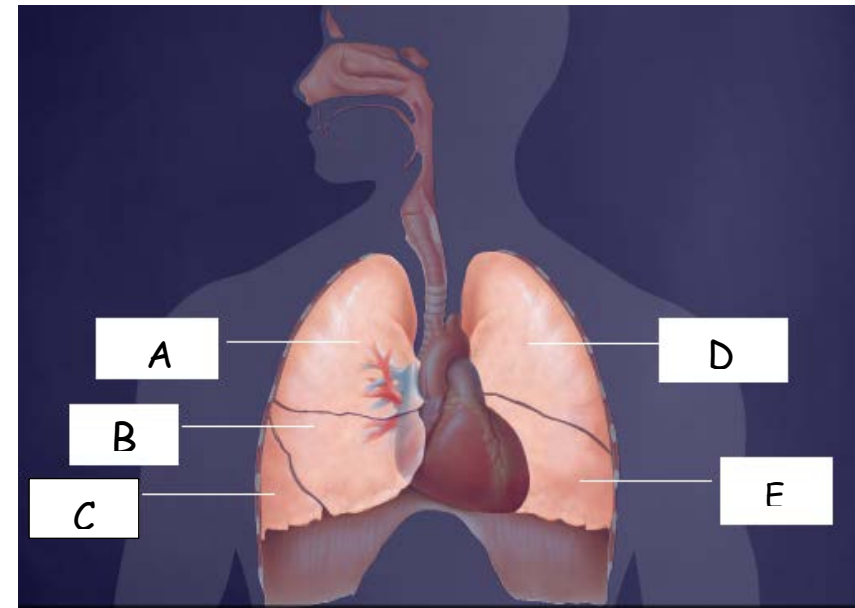

# Breath Emma, Breath

Match the parts of Emma's Respiratory System with their function:

- |                    |   |
|--------------------|---|
| ___ Nose           | A. The main breathing muscle.   |
| ___ Pharynx        | B. Takes air from the vocal cords to the lungs.                       |
| ___ Epiglottis     | C. Filters air to remove dirt.  |
| ___ Larynx         | D. Contains thousands of tiny air sacs.                               |
| ___ Vocal Cords    | E. Directs food to the stomach and air to the lungs.                  |
| ___ Trachea        | F. Also called the throat.  |
| ___ Bronchial Tree | G. Where oxygen enters the blood and carbon dioxide leaves the blood. |
| ___ Lungs          | H. Your "Adam"s Apple".   |
| ___ Alveoli        | I. Airways that take air to the bottom of the lungs.                  |
| ___ Diaphragm      | J. Tissue that vibrates to produce sound.                             |

# National Geographic - Lungs

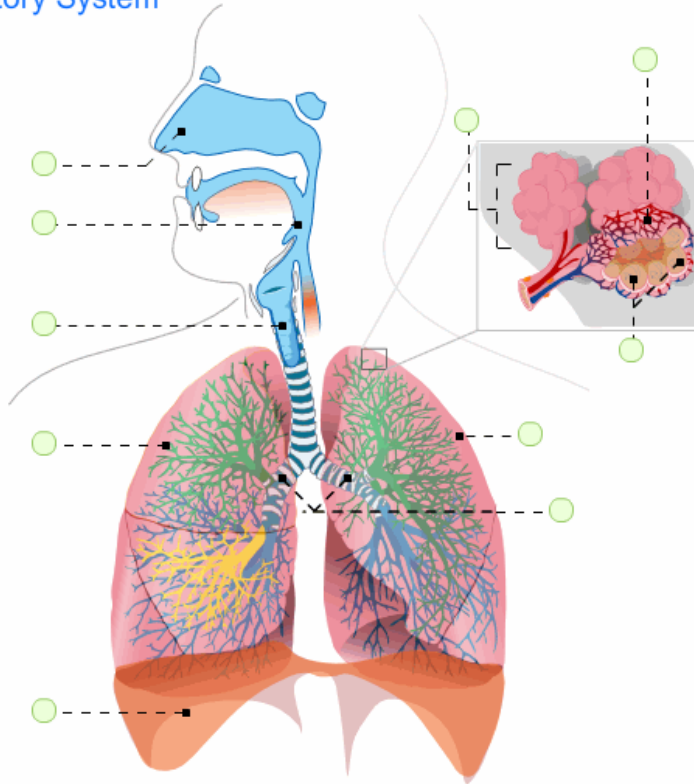

Label the Lobes of the Lung
