"The Laboratory is in your Head"

## Catching the Bus

Every morning when Aldo, Brenda, and Cory line up at the bus stop, they can choose between two busses — one yellow and one blue.

1. Whenever Aldo takes the yellow bus, Brenda and Cory take the same bus as each other.
2. If Brenda takes the yellow bus, Aldo and Cory take different busses from each other.
3. If Cory takes the blue bus, Aldo takes the same bus as Brenda.

Which of the three kids always takes the same bus?  
What color is it? Explain your logic.
